

The Teaching Placement Programme includes 10 hours of training and 45 hours of in-class activity, as assistant of the Language Professor. During the 45 working hours, the trainee must collaborate with the professor and take part to staff meetings to plan in-class daily work. The total amount of hours is 125, which comprises training (10 hours), in class hours (45), time at home for preparing lessons (ppt), planning activities, and issuing the final essay.

The trainee will then attach such material (in electronic format) to the final essay of 4500 words, preferably edited in Italian.

In the final essay, the trainee must:

- describe his/her experience in the host school
- describe the differences and make comparisons between the Italian school and his/her home country school, in the light of his/her previous studying experience
- analyse the positive aspects and possible drawbacks of the project and explain the personal and professional benefits gained from this experience

Trainees must submit their essays to the e-mail address an.cortese@libero.it by the first week of June, in order to obtain the correspondent number of ECTS credits (5 credits including 45 working hours + compulsory attendance for the 10-hour training session) and the academic mark.

For any further requests, information or details on the programme, please contact the Project Coordinator, Ms Antonella Cortese:
