

Teaching Placement Final Essay

The trainee will attach PPT's created for lessons (in electronic format) to the final essay of 4500 words, preferably (but not mandatory) edited in Italian.

In the final essay, the trainee must:

- describe his/her experience in the host school
- describe the differences and make comparisons between the Italian school and his/her home country school, in the light of his/her previous studying experience
- analyse the positive aspects and possible drawbacks of the project and explain the personal and professional benefits gained from this experience

Trainees must submit their essays along with PPT's to the e-mail address antonella.cortese@unipr.it within the end of their traineeship, in order to obtain the correspondent number of ECTS credits previously agreed and the academic mark.
