DIGITAL
FUTURES
ACADEMY

SDA **Bocconi**
SCHOOL OF MANAGEMENT

Capgemini 

[SDABOCCONI.IT/FEM](https://sdabocconi.it/fem)

MILANO • ITALY

The Digital Futures Academy originates from a partnership between SDA Bocconi School of Management and Capgemini and was set up to offer a set of managerial and technological training opportunities for talents, professionals and executives in the field of ICT consulting.

THE DIGITAL FUTURES ACADEMY

The context in which SDA Bocconi School of Management and Capgemini have decided to design the Digital Futures Academy features:

- Considerable disparity between available resources and demand for ICT professional profiles;
- Lack of training and job placement schemes with the right balance between learning content and practical application;
- Perceived lack of differentiation between the resources of the various System Integrators and ICT consultants.

The Digital Futures Academy aims to meet industry needs by designing high-profile initiatives that combine typical management training themes with the tech topics needed to navigate the world of ICT consulting.

THE FUTURE OF ENTERPRISE MANAGEMENT

The Future of Enterprise Management initiative targets recent graduates (BScs or MScs) who are interested in joining the world of ICT consulting. The program is particularly relevant to the curriculum of the Economics and STEM faculties, with a strong focus on the role of the ERP consultant.

WHO IS IT FOR

The first initiative launched by the Digital Futures Academy is called **The Future of Enterprise Management** and targets young recent graduates who want to become junior professionals working directly on Capgemini consulting projects. The program targets candidates who:

- Have graduated/will graduate shortly from Economics or STEM faculties
- Are fluent in English (the course is taught in English)
- Whose average age is 26
- Are deeply interested in the world of ICT

ADVANTAGES

Participation is free of charge. The cost will be covered by Capgemini (except for room and board in Milano). After an initial three-month internship period, which starts from the beginning of the Academy, Capgemini hires the participants who will pass all their assignments. The final hiring assessment by Capgemini is independent and SDA Bocconi will in no way be responsible for the outcome of the process.

STRUCTURE AND GENERAL CONTENT

The initiative consists of **15 days of training, from 19 September - 7 October 2022**. The program is taught in English and is divided in **two modules**:

19-30 SEPTEMBER 2022 BY THE SDA BOCCONI faculty together with managers in the industry, focusing on major corporate processes and topics of present interest in the world of ICT systems

3-7 OCTOBER 2022 OF TECH TRAINING BY CAPGEMINI.

The program will be entirely on campus, on SDA Bocconi School of Management premises, and complies with national and local directions to prevent and limit Covid-19 infection. Should it be necessary to discontinue face-to-face delivery, the program will be delivered synchronously online.

SELECTION AND ENROLMENT PROCESS

Participation in The Future of Enterprise Management is subject to selection by Capgemini. The first edition admits **40 participants and the deadline for application is 2 September 2022**.

REQUIREMENTS TO APPLY

- Economics or STEM recent BSc or recent or upcoming MSc degree
- Fluent in English (B2)
- No former work experience or knowledge of programming languages is required
- Graduation certificate (the most recent degree)
- Detailed resumè

FINAL ACKNOWLEDGEMENTS

At the end of the initiative – once passed all the tests - and after six months of training on the job, participants will receive a certificate of attendance by SDA Bocconi.

SDA BOCCONI SCHOOL OF MANAGEMENT

For fifty years, we have been committed to fueling your educational experiences with our passion for knowledge and concrete know-how, creativity and scientific rigor, and cultural and international diversity. We were born to support the continuous growth, improvement and transformation of people, companies and institutions, and we will stand by your side through the toughest challenges.

Over the years, we have grown with our clients and students. We have learned to change and transform what we offer. We have gone from national to global leaders according to prestigious, international rankings. We have increased our commitment and the programs we offer to ensure we always have an answer to the needs of new skills. We have transformed our research in relevant and applied knowledge and embraced the challenge of the digital transformation. And we have designed and created a campus for the future, one of the most innovative in the world.

We are an international school with headquarters in Milan and Rome and a pan-Asian hub in Mumbai, India. Our classrooms reflect the globalization of modern society and the diversity of thought that cultivates progress and innovation.

Our strength lies in our ability to evolve, thanks to the contagious, innovative energy found at all levels of our community.

We do not fear the future. We want to play a leading role in the global market of higher education alongside small, medium and large companies and institutions. We are proud of our identity and the Italian creative ingenuity we represent, but we will always be open to the world.
