## MSCA Bootcamp@UNIPR 2023: CALL PUBLISHED

**Twenty selected postdoctoral researchers from all over the world will benefit from a 3-day workshop with experts in project writing and evaluation, support in project preparation, and a grant. Applications are open until March 24<sup>th</sup>**

Parma, Feb. 20<sup>th</sup>, 2023 - The University of Parma has published the [call for proposals "MSCA@UNIPR BOOTCAMP 2023"](#) on its website aimed at selecting 20 postdoctoral researchers from all over the world who wish to submit innovative research projects for a Marie Skłodowska-Curie Actions Postdoctoral Fellowship.

Selected researchers will have the exclusive opportunity to participate in a training workshop organized at the University of Parma from June 5<sup>th</sup> to June 7<sup>th</sup>, 2023. Experts in project writing and evaluation will teach them how to write a MSCA-PF proposal and then provide support in the project preparation process.

Successful applicants will be eligible for a research grant or, alternatively, an expense reimbursement of up to 1,000 euro.

Applications can be submitted until March 24<sup>th</sup> at 12 p.m.

Postdoctoral researchers from anywhere in the world who meet the eligibility conditions of the MSCA-PF program are eligible to apply. During the opening period of the call, applicants must identify and contact a potential supervisor within the University of Parma through a dedicated database, committing to develop together a project proposal to be submitted in response of the

call HORIZON-MSCA-2023-PF-01-01 by the deadline of September 13<sup>th</sup>, 2023. Applicants must also choose the University of Parma as the Host Organization when submitting the MSCA-PF proposal.

The call for applications, the database of available supervisors, the application form and the relative attachments along with all useful information can be found on this page: [MSCA@UNIPR BOOTCAMP 2023](#)
