- any other technological aid deemed suitable;
- additional time not exceeding 50% of the time allotted for the test;

the granting and assignment of which is determined at the sole discretion of the Examining Committee, on the basis of the documentation presented and the objective examination of each specific case. To this end, candidates, in the application form, are required to document this condition by explicitly requesting the dispensatory measure, the compensatory instrument and/or the additional time necessary according to their need, which must be documented with a specific declaration made by the Medico-Legal Commission of the ASL of reference or by an equivalent public structure, to be attached to the application for admission to the competition.

In both of the aforementioned cases, failure to indicate in the application the request for compensatory aids and tools and/or additional time and/or, in permitted cases, to replace the written test with an interview, as well as the failure to submit the required documentation, exempt the Administration from any obligation in this regard. The request must be drawn up following the instructions available in the online application procedure for participation in the competition procedure.

The University ensures participation in the tests, without prejudice, to **candidates who are unable to comply with the calendar set out in the call for applications due to pregnancy or breastfeeding**, also through the performance of asynchronous tests and, in any case, the availability of special spaces to allow breastfeeding. To this end, the candidates,

under the above conditions, must send to the e-mail address concorsipta@unipr.it, at least 7 days before the date set for the test, a specific request in order to allow the Administration to adopt adequate organizational measures. The administration may order, at any stage of the competition procedure, with a reasoned provision of the Director General, the exclusion of the candidate from the selection.
