### The EU GREEN Alliance Universities:

- ~ Università di Parma (Italy) – **BIP Coordinating institution**
- ~ Uniwersytet Przyrodniczy we Wrocławiu (Poland)
- ~ Universidad de Extremadura (Spain)
- ~ Université d'Angers (France)
- ~ Universitatea din Oradea (Romania)
- ~ Otto-von-Guericke Universität Magdeburg (Germany)
- ~ Höskolan i Gävle (Sweden)
- ~ Atlantic Technological University (Ireland)
- ~ Universidade de Évora (Portugal)

In collaboration with

- ~ Galway Atlantic Centre of Education (Ireland)

launch the first ERASMUS+ Blended Intensive Programme (BIP) **entirely designed for administrative staff employed in libraries and student secretariats and student services**. Entitled “Think. Speak. Influence: Mastering Communication Across Cultures and Contexts”, this BIP is aimed at facilitating interaction, communication and collaboration processes among the administrators employed in one of the EU GREEN Universities.

This BIP is officially approved by the EU in the framework of the ERASMUS+ 2021-2027 programme and is developed in the framework of the EU GREEN Alliance network.

BIPs are one of the new and innovative compact formats of mobility introduced by the new Erasmus+ 2021-2027 Programme. These programmes, jointly developed by multiple higher education institutions, feature advanced and innovative pedagogical approaches that combine short-term physical mobilities with virtual learning components. BIPs are inherently transnational and transdisciplinary, as their curricula are developed and delivered collaboratively by partner institutions in different countries. The combination of in-person and virtual learning environments allows learners to experience and exchange highly collaborative, challenge-based, and research- steeped methods of teaching and learning. Through the required virtual part of the program, learners have the opportunity to develop and hone their digital knowledge and skills, reflecting the European Commission’s priority to harness the potential of digital technologies for teaching and learning and to develop digital skills for all.

## Program learning objectives

This Blended Intensive Programme (BIP), part of the EU GREEN initiative, is designed to enhance participants' communication skills in multicultural and interdisciplinary environments. This program is designed to equip participants with the essential communication skills needed to thrive in international and multicultural environments. One of the key objectives is to develop intercultural communication competence, helping learners understand cultural differences in communication styles, values, and expectations, while also encouraging reflection on their own cultural identity and how it influences their interactions.

Another major focus is on enhancing both verbal and non-verbal communication skills. Participants will practice effective speaking and listening techniques, and learn to adjust tone, body language, and messaging according to the audience and context. The program also emphasizes the ability to communicate effectively in multilingual and multicultural settings. It provides practical tools for overcoming language barriers and addresses the specific challenges that arise in both virtual and face-to-face international collaboration.

In addition, participants will work on strengthening their ability to influence and persuade. Using structured argumentation, storytelling, and rhetorical techniques, they will learn how to engage diverse audiences and present ideas in a compelling way. Another important component of the program is the development of teamwork and leadership skills in international contexts. Participants will learn to collaborate empathetically and efficiently in cross-cultural teams and reflect on how different leadership styles are interpreted across cultures. Finally, the program ensures that all these skills are put into practice through real-world applications. Activities like simulations, role-plays, and case studies offer hands-on experience, and personalized feedback helps participants refine their strategies for professional communication.

## Programme description

In today's increasingly interconnected world, communication skills are essential not only for academic success but also for personal and professional growth. This Blended Intensive Programme (BIP) focuses on enhancing communication skills within a university setting and beyond, while emphasizing cross-cultural understanding, professionalism, and adaptability. Specifically designed for administrative staff, the program aims to develop effective communication practices that are respectful, inclusive, and suitable for a variety of academic and professional situations. Participants will explore both theoretical and practical approaches to communication through a mix of in-person sessions, interactive workshops, and online activities.

The program is structured around a set of interrelated modules designed to foster

understanding and mastery of communication in diverse contexts:

- Internal and External Communication:
  - Understand the difference between communication within the university environment (e.g., student-to-student, student-to-staff) and external communication (e.g., with guest speakers, industry partners, and stakeholders).
- Academic and Professional Interaction:
  - Learn how to communicate clearly, respectfully, and professionally in academic environments. Gain confidence in expressing ideas, giving feedback, and participating in group discussions.
- Social media and Personal Branding:
  - Develop professional communication strategies for digital platforms. Learn how to build and manage an effective and authentic online presence.
- Intercultural and Identity-Based Communication:
  - Explore how cultural and identity differences shape communication styles. Improve your ability to navigate and adapt to diverse social and academic contexts.
- Communication Styles and Linguistic Relativity:
  - Understand the difference between high-context and low-context cultures and how these may influence interpersonal communication. Discover how language shapes perception, interaction, and meaning-making.

### **Total number of participants per institution**

“Think. Speak. Influence: A Communication Workshop for Mastering Communication Across Cultures and Contexts” is open to a maximum of 5 participants per EU GREEN university, for a total class of 45 participants.

### **BIP calendar (both virtual and physical periods)**

#### **Virtual period**

The virtual part of the Programme respects the following calendar:

- Wednesday, 27<sup>th</sup> August 2025
- Thursday, 28<sup>th</sup> August 2025

#### **Physical period**

The in-presence part of the programme has the following calendar:

- Monday October 20<sup>th</sup>, 2025 – Start
- Friday October 24<sup>th</sup>, 2025 – End

## Recognition and credits

Since the BIP is addressed to university administration staff, the terms of recognition for participating in the Programme are the ones active at each single partner institution.

## Teaching methodologies

The programme includes the following teaching methodologies:

- face-to-face lectures
- on-field class,
- case-studies presentations,
- self-learning
- online group meetings for data analysis and discussion.

## Venue for the physical period of attendance

The physical part of the BIP will take place at Galway, Ireland at both **the Atlantic Centre of Education Galway** and the **Atlantic Technological University**. The Atlantic Technological University hosts the technical meetings, and the Atlantic Centre of Education hosts the lectures.

## Privacy policy

Please kindly note the Privacy Policy as already stated and accepted previously, based on the EU General Data Protection Regulation (GDPR).

"I hereby give consent for my personal data to be processed for the purposes and procedures described below. We process your personal data as follows when preparing, organizing, staging and following up events and activities. This includes both regular and one-off shows, either in person or online, e.g. via video conferencing systems, over the phone or using other streaming technologies. Personal data may also be processed to the extent that the data are required for registering, sending invitations for follow-up events, organizing catering, providing information, contacting participants, coordinating appointments, providing communication platforms for exchange and networking among participants, sending offers and performing other activities related to marketing events not listed here. The processing of personal data may be performed manually or by automated means with the help of suitable tools and may include all types of processing pursuant to Article 4 (2) GDPR, such as collection, structuring, storage, retrieval, use, disclosure by transmission and erasure. You will be informed in advance and at the respective event if photographs and/or video footage are to be taken. These data categories may then be used, duplicated, shared and exploited free of charge and without any restrictions in terms of time, location or content, in particular also for use on websites, as part of social media channels, video portals and newsletters, for any kind of film or print products, such as DVDs, brochures, leaflets or similar, and for PowerPoint presentations that enable positive presentation of the company to the outside world, and facilitate marketing and internal communication processes. The transfer of image rights is performed free of charge and includes the processing and transfer of rights to third parties (the participating cooperation partners and media representatives). If third parties act as data processors for our company, they are legally obliged to comply with and implement the data protection principles agreed in the relevant data processing agreements".

Within the context of events and activities, we process your contact data and, depending on the actual event, also photo and video data. To this end, we comply with the information duties set out in the EU General Data Protection Regulation (GDPR).

Please address your home University DPO correspondence to the "Data Protection Officer".

Recipients or categories of recipients of your personal data are offices of the EU GREEN Universities.

Processing activities: We will collect, inspect, store, share, delete and destroy your data. Your personal data will not be processed in third countries outside the EU.

Purpose and legal basis: Your personal data are used to prepare, organize, stage and follow up events and activities as well as for any other relevant matters that may arise while providing services.

The legal basis for processing is based on your voluntary consent pursuant to Article 6 (1a) (lawfulness of

processing; data subject has given consent to the processing of his or her personal data) in connection with Article 7 (conditions for consent).

Storage period. We will delete your personal data when you assert your right to erasure or withdraw your consent. Your rights as a data subject: Pursuant to Article 15 (GDPR), you have a right of access, and as a data subject you also have a right to rectification (Article 16 (GDPR), to erasure (Article 17(1) (GDPR)), to restriction of processing (Article 18 (GDPR) and to data portability (Article 20 (GDPR)). Further, pursuant to Article 21 (GDPR), you have the right to object, on grounds relating to your situation, at any time to processing of personal data concerning you which are based on point (e) or (f) of Article 6 (1) GDPR."

Thank you for your understanding regarding the fulfilment of data protection-related information duties.
