TITOLO PROGRAMMA DI RICERCA / TITLE OF RESEARCH PROGRAM
(ITA) Ellitticità non uniforme diffusa
(ENG) Nonuniform Ellipticity Widespread
DESCRIZIONE DEL PROGRAMMA DI RICERCA / DESCRIPTION OF THE RESEARCH PROGRAM
(ITA) Il programma di ricerca in cui le due posizioni si inseriscono riguarda lo studio dell'effetto dell'ellitticità sulla regolarità delle soluzioni di equazioni alle derivate parziali (EDP). La classe di equazioni ellittiche maggiormente studiata e quella delle EDP uniformemente ellittiche, caratterizzate dall'uniforme limitatezza del rapporto tra il massimo e il minimo autovalore della matrice ellittica che governa l'equazione. La regolarità delle soluzioni di energia di equazioni uniformemente ellittiche è un risultato classico, a partire dai lavori fondamentali di Ural'tseva e Uhlenbeck. Tuttavia, la

regolarità può essere inibita dall'introduzione di termini forzanti o di trasporto, di coefficienti dipendenti dallo spazio, oppure dall'indebolimento della condizione di ellitticità uniforme. Questi aspetti sono al centro di problemi aperti fondamentali nella teoria della regolarità ellittica e parabolica, che riguardano diversi tipi di ellitticità non classica, degenera o non uniforme. Tra le questioni aperte di lunga data rientrano la teoria di Calderón–Zygmund in contesti degeneri, le stime dell'insieme singolare nei problemi vettoriali, la regolarità massimale per operatori monotoni, eventualmente non locali, e per flussi non uniformemente parabolici. In tale contesto, l'obiettivo finale del progetto è lo sviluppo di una teoria innovativa di regolarità non lineare, in grado di fornire risultati ottimali in presenza di ellitticità non classica e di dati irregolari.

**(ENG)** The research program in which the two positions are part concerns the study of the effect of ellipticity on the regularity of partial differential equation (EDP) solutions. The most studied class of elliptic equations is that of uniformly elliptic EDPs, characterized by the uniform limitation of the ratio between the maximum and the minimum eigenvalue of the elliptic matrix that governs the equation. The regularity of energy solutions of uniformly elliptic equations is a classical result, starting from the fundamental works of Ural'tseva and Uhlenbeck. However, regularity may be inhibited by the introduction of forcing or transport terms, of space-dependent coefficients, or by weakening the condition of uniform ellipticity. These aspects are at the heart of fundamental open problems in the theory of elliptic and parabolic regularity, which concern different types of nonclassical, degenerate, or non-uniform ellipticity. Among the long-standing open questions are the Calderón–Zygmund theory in degenerate contexts, the estimates of the singular set in vector problems, the maximal regularity for monotonic, possibly non-local, operators and for non-uniformly parabolic flows. In this context, the ultimate goal of the project is the development of an innovative theory of nonlinear regularity, capable of providing optimal results in the presence of non-classical ellipticity and irregular data.

The assessment is supplemented by a **public interview, entirely in English**, aimed at ascertaining the candidates' aptitude for carrying out the activity covered by the assignment, as well as their language skills.

For the evaluation of each candidate, the Selection Committee has a **maximum of 100 points available**, divided on the basis of the following criteria:

<sup>4</sup> In this case, the *curriculum vitae* must contain the following wording: "*Pursuant to and for the purposes of articles 46 and 47 and aware of the criminal sanctions provided for by article 76 of Presidential Decree no. 445 of 28 December 2000 in the event of falsity in deeds and false declarations, I declare that the information contained in this curriculum vitae, drawn up in European format, correspond to the truth.*"

**Candidates who have obtained a score of at least 30 (thirty) points in the evaluation of the criteria indicated in letters a) and b) and c) are admitted to the interview.**

The list of candidates admitted to the interview, together with the score obtained by them in the evaluation of the criteria referred to in letters a), b) and c), will be announced by publication of a specific notice on the University website (link: <https://www.unipr.it/bandi-incarichi-post-doc>), with notification value to all interested parties, on **18 MARCH 2026**.

(\*) The public form that distinguishes the interview will be guaranteed by allowing anyone to be able to attend it electronically, at the time of its performance, by connecting to the videoconference link.

For the purposes of identification and under penalty of exclusion from the selection procedure, each candidate is required, before the interview begins, to identify himself/herself, by showing a suitable identification document. Those who are citizens of a European Union country must present their passport, or an identity document issued by the country of origin. Applicants from countries outside the European Union must present only their passport.

**The absence of the candidate from the interview will be considered as a waiver of the procedure, whatever the cause.**

Once the evaluation has been concluded, for each candidate, on the basis of the criteria referred to in points a), b), c) and d) above, the Commission draws up a merit ranking list in descending order and identifies the winner of the selection. The judgment of the Commission is final on the merits.

The selection is considered passed with a **minimum overall score of 70 (seventy) points out of 100 (one hundred) overall.**

The assignment is conferred on the candidate who has obtained the highest overall score, according to the order of the final ranking. In the event of equal merit, the youngest candidate is preferred.

**- ART. 7 -**

**APPROVAL OF THE RANKING LIST**

The acts of the selection procedure are approved by Rector's Decree, published on the *online* Register and on the website of the University of Parma in the section dedicated to the procedure, which can be reached via a link to the [address https://www.unipr.it/bandi-incarichi-post-doc](https://www.unipr.it/bandi-incarichi-post-doc), which will declare the winner under suspensive condition the

ascertainment of the requirements for admission to employment. From the day of publication of this decree, the deadline for any appeals runs.

The ranking list remains in force for 12 (twelve) months, starting from the date of approval of the acts, without prejudice to compliance with all the requirements for the activation of the post-doc assignment. No declarations of eligibility for selection will be made.

The post-doc assignment may be assigned to an additional candidate who has been found to be suitable, according to the order of the respective ranking, in the following cases:

- forfeiture of the winner from the right to employment due to non-acceptance within the deadline set by the University or for other reasons provided for by law;

During the period of validity of the ranking list, in the presence of justified additional needs relating to the performance of the same research program, the Department Council may propose to the Rector the assignment of additional post-doc positions to candidates duly placed in the ranking list, provided that the availability of the relevant financial coverage has been ascertained.

**- ART. 8 -**

**ESTABLISHMENT OF THE EMPLOYMENT RELATIONSHIP and ASSUMPTION OF SERVICE**

Each post-doc assignment is conferred through the stipulation of an individual fixed-term employment contract, with a duration of 24 (twenty-four) months, containing the rights and duties of the parties, to be signed within the term set by the University.

At the time of signing the employment contract, interested parties are invited to submit the documentation required pursuant to current legislation. Failure to deliver or incomplete delivery or failure to regularise it, within the prescribed period, will result in the forfeiture of the right to employment.

The winner in possession of a doctoral degree obtained abroad can enter into the individual employment contract only after legal recognition of the same in Italy, according to the procedures provided for by current legislation, under penalty of forfeiture of the right to the conferral of the post-doc assignment and elimination from the ranking.

Citizens of non-European Union countries, in order to sign the employment contract, must certify the regularity of their position regarding their stay in Italy, pursuant to the current provisions on immigration (Legislative Decree 286/1998).

In any case, those who, within the deadline set by the University, do not declare that they accept it or do not sign the relevant employment contract lose the right to the conferral of the post-doc assignment.

The fixed-term employment relationship, under no circumstances, can automatically convert into an open-ended employment relationship.
