CDA/31-07-2025/313 of 31.07.2025, **of n. 1 research contract, with a duration of 24 months, pursuant to art. 22 of Law no. 240 of 30.12.2010 and the related University Regulations**, as specified below:

TITOLO PROGRAMMA DI RICERCA / TITLE OF RESEARCH PROGRAM
(ITA) Capsule molecolari calixareniche come piattaforme per liquidi porosi (ENG) Calixarene-based molecular capsules as platforms for porous liquids
DESCRIZIONE DEL PROGRAMMA DI RICERCA / DESCRIPTION OF THE RESEARCH PROGRAM
(ITA) Le capsule molecolari calixareniche rappresentano piattaforme versatili per lo sviluppo di liquidi porosi (PLs), materiali innovativi che uniscono fluidità e porosità permanente. La proposta mira alla sintesi di nuove capsule funzionalizzate con catene alifatiche o polietilenglicoliche, capaci di fondere a basse temperature e di comportarsi come PLs stabili. Le capsule verranno preparate sfruttando la Dynamic Covalent Chemistry (DCC) e caratterizzate mediante tecniche spettroscopiche, cristallografiche e reologiche, con particolare attenzione alle proprietà host-guest e all'incapsulamento di gas, cromofori e specie reattive. Gli studi consentiranno di correlare struttura, solubilità e capacità di incapsulamento, valutando le prestazioni in solventi organici, acquosi e nello stato puro. I risultati attesi forniranno la prima dimostrazione di capsule liquide calixareniche e il loro potenziale per applicazioni in cattura, separazione e trasporto di gas, con ricadute in ambito ambientale ed energetico. (ENG) Calixarene molecular capsules represent versatile platforms for the development of porous liquids (PLs), innovative materials that combine fluidity with permanent porosity. This proposal aims at synthesizing new capsules functionalized with aliphatic or polyethylene glycol chains, capable of melting at low temperatures and behaving as stable PLs. The capsules will be prepared using Dynamic Covalent Chemistry (DCC) methods and characterized by spectroscopic, crystallographic, and rheological techniques, with particular focus on their host-guest properties and the encapsulation of gases, chromophores, and reactive species. These studies will allow us to correlate structure, solubility, and encapsulation ability, assessing performance in organic and aqueous solvents as well as in the pure state. The expected results will provide the first demonstration of liquid calixarene capsules and their potential for applications in gas capture, separation, and transport, with implications in environmental and energy-related fields.

	Requirements for admission to the procedure subject to evaluation by the Selection Committee	
Condition A (n. 2 requirements to be met)	1) PhD degree <u>obtained in Italy</u> in the following field: Chemical Sciences	2) have completed at least 3 (three) months of training and research at a foreign institution
Condition B (n. 1 requirement to be met)	1) PhD qualification <u>obtained abroad</u> in the following field: Chemical Sciences	
Condition C (n. 2 requirements to be met)	1) enrolment in the last year of the PhD programme, <u>in Italy</u>, in the following field: Chemical Sciences, provided that the degree is awarded within 6 (six) months from the publication of this call for applications	2) have already completed or are planning at least 3 (three) months of training and research at a foreign institution
Condition D (n. 1 requirement to be met)	1) enrolment in the last year of the PhD programme, <u>abroad</u>, in the following field: Chemical Sciences, provided that the degree is awarded and recognised in Italy within 6 (six) months of the publication of this call for applications	

The candidate, in possession of a **PhD qualification obtained abroad**, can participate in the selection by opting for one of the following alternatives:

- a) attaching, if already possessed, a copy of the provision of academic recognition (former equivalence), with which the foreign qualification in Italy was conferred, assimilating it *on a one-off basis* to the Italian qualification required by the call for applications and allowing all the uses related to it, issued by the Ministry of University and Research (MUR) pursuant to art. 74 of Presidential Decree no. 382/1980 or, after 1 March 2022, by an Italian university or other Italian higher education institution pursuant to art. 38, paragraph 3.2, of Legislative Decree no. 165/2001¹;
or
- b) undertaking to activate - in the event that he/she is declared the winner of the selection procedure and within 15 days, under penalty of forfeiture, from the date of publication of the final ranking - the procedure for academic recognition (former equivalence) of the foreign doctoral qualification, pursuant to art. 38, paragraph 3.2, of Legislative Decree no. 165/2001,² by sending a specific application to an Italian university or other Italian higher education institution;
or
- c) undertaking to activate - in the event that he/she is declared the winner of the selection procedure and within 15 days, under penalty of forfeiture, from the date of publication of the final ranking - the procedure for non-academic recognition (former equivalence) of the foreign doctoral qualification, pursuant to art. 38, paragraph 3, of Legislative Decree 165/2001,³ by sending a specific application to the Department of Public Administration and, at the same time, to the Ministry of University and Research (MUR).

In the cases referred to in letters b) and c), **the winner undertakes to promptly send and, in any case, within the aforementioned deadlines, to the e-mail address protocollo@unipr.it, the documentation certifying the start of the procedure for academic recognition (former equivalence) or non-academic recognition (former equivalence).**

On the other hand, in the event that **the PhD title is being acquired, in Italy or abroad**, the Selection Committee will assess the equivalence for the sole purpose of participating in the procedure. In this case, the expected date of achievement and recognition of the qualification must be declared and the following must be attached:

Apart from the above-mentioned cases, the states, personal qualities and facts are documented by certificates or attestations issued by the competent authority of the foreign State, accompanied by a translation into Italian authenticated by the Italian consular authority certifying their conformity to the original.

Candidates with disabilities and/or disabilities recognized pursuant to Law no. 104 of 5 February 1992 and Law no. 68 of 12 March 1999, in the application form, must explicitly request the necessary assistance to be able to take the interview, in relation to their disability, to be documented, by means of a suitable certificate issued by the medical-legal commission of the ASL of reference or by an equivalent public structure. SELECTION COMMITTEE

The Selection Committee, established in accordance with art. 56 of the current "*Regulations for the awarding of research contracts, post-doc appointments and research assignments pursuant to articles 22, 22 bis and 22 ter of Law no. 240 of 30 December 2010*", is appointed by Decree of the Rector, on the proposal of the Department Council.

- ART. 6 -

SELECTION MODE

The selection is carried out by **means of a comparative evaluation of the candidates** and is aimed at evaluating:

- the adherence of the research project presented to the research program subject to the selection;
- possession of a scientific-professional curriculum suitable for carrying out the research activity covered by the contract.

The evaluation is supplemented by the conduct of an **interview**, in a public session, aimed at ascertaining the aptitude for carrying out the research activity covered by the contract and the implementation of the research project presented, as well as the knowledge of the English language. The foreign candidate must also demonstrate an adequate knowledge of the Italian language.

For the evaluation of each candidate, the Selection Committee has a **maximum of 100 points available**, broken down on the basis of the following criteria:

Evaluation Criteria	Maximum score that can be awarded
a) relevance, innovativeness, quality and methodology of the research project proposed by the candidate, with regard to the research program subject to the selection	30 Points
b) quality and relevance of publications and/or patents and/or other documentable research products with the contents of the research program subject to the selection	10 Points
c) relevance and relevance of the documented research activities previously carried out, as well as any duly attested professional experience, in relation to the contents of the research program subject to the selection	20 Points
d) interview aimed at ascertaining the aptitude for carrying out the research activity covered by the contract and for the implementation of the research project presented, as well as the knowledge and knowledge of English and/or other languages relevant to the research	40 Points

The Selection Committee, before examining the applications, analytically declines the aforementioned evaluation criteria, published on the University website at <https://www.unipr.it/bandi-di-concorso-contratti-di-ricerca>, in the section dedicated to this procedure, as well as the methods of evaluation of the same in order to assign the relative scores.

Candidates who have obtained a score of at least 30 (thirty) points in the evaluation of the criteria indicated in letters a) and b) and c) are admitted to the interview.

The list of candidates admitted to the interview, together with the score obtained by them in the evaluation of the criteria referred to in letters a), b) and c), will be announced by publishing a specific notice on the University website (link: <https://www.unipr.it/bandi-di-concorso-contratti-di-ricerca>), with notification value to all interested parties, on **27 APRIL 2026**.

The interview will take place according to the following **calendar**:

Date and time	Procedure	Link to link
APRIL 30, 2026 11:00 a.m. (Italian time)	Telematics(*)	The platform used and the link for the connection will be indicated in the notice to be published on 27 APRIL 2026 , together with the list of admitted.

(*) The public form that distinguishes the interview will be guaranteed by allowing anyone to be able to attend it electronically, at the time of its performance, by connecting to the videoconference link.

For the purposes of identification and under penalty of exclusion from the selection procedure, each candidate is required, before the interview begins, to identify himself/herself, by showing a suitable identification document. Those who are citizens of a European Union country must present their passport, or an identity document issued by the country of origin. Applicants from countries outside the European Union must present only their passport.

The absence of the candidate from the interview will be considered as a waiver of the procedure, whatever the cause.

Once the evaluation has been concluded, for each candidate, on the basis of the criteria referred to in points a), b), c) and d) above, the Commission draws up a merit ranking list in descending order and identifies the winner of the selection. The judgment of the Commission is final on the merits.

The selection is considered passed with a **minimum overall score of 70 (seventy) points out of 100 (one hundred) overall.**

The contract is stipulated with the candidate who has obtained the highest overall score, according to the order of the final ranking. In the event of equal merit, the youngest candidate is preferred.

- ART. 7 -

APPROVAL OF THE RANKING LIST

The acts of the selection procedure are approved by Rector's Decree, published on the *online* Register and on the website of the University of Parma in the section dedicated to the procedure, which can be reached via a link to the [address https://www.unipr.it/bandi-di-concorso-contratti-di-ricerca](https://www.unipr.it/bandi-di-concorso-contratti-di-ricerca), which will declare the winner under a condition precedent of the verification of the requirements for admission to employment. The deadline for any appeals runs from the day of publication of this decree.

The ranking list remains in force for 12 (twelve) months, starting from the date of approval of the acts, without prejudice to compliance with all the requirements for the activation of the research contract. No declarations of eligibility for selection will be made.

The research contract may be awarded to an additional candidate who has been found to be suitable, according to the order of the respective ranking, in the following cases:

- waiver of employment formalized by the winner;
- forfeiture of the winner from the right to employment due to non-acceptance within the deadline set by the university or for other reasons provided for by law;
- failure to take service of the winner;
- early termination of the individual contract concluded with the winner.

During the validity of the ranking list, in the presence of further justified needs relating to the performance of the same research program, the Department Council may propose to the Rector the awarding of additional research contracts to candidates duly placed in the ranking list, provided that the availability of the relevant financial coverage has been ascertained.

- ART. 8 -

ESTABLISHMENT OF THE EMPLOYMENT RELATIONSHIP and ASSUMPTION OF SERVICE

The research contract is conferred through the stipulation of an individual fixed-term employment contract, with a duration of 24 months, containing the rights and duties of the parties, to be signed within the term set by the University.

At the time of signing the contract, the interested party is invited to submit the documentation required in accordance with current legislation. Failure to deliver or incomplete delivery or failure to regularise it, within the prescribed period, will result in the forfeiture of the right to employment.

The winner, already in possession of a doctoral degree or a similar degree obtained abroad, may enter into the research contract only after legal recognition of the same in Italy, according to the procedures provided for by current legislation, under penalty of forfeiture of the right to the conferral of the research contract and elimination from the ranking.

The successful doctoral student or the successful doctoral student may enter into the research contract only after obtaining the title of PhD or, if obtained abroad, only after obtaining the title of PhD or equivalent degree and its recognition in Italy through the procedure referred to in art. 38, paragraph 3.2, of Legislative Decree 165/2001, within 6 (six) months following the date of publication of this call for applications on the University's online Register, under penalty of forfeiture of the right to the conferral of the research contract and elimination from the ranking list.

Citizens of non-European Union countries in order to sign the contract, for the purpose of taking up employment, must certify the regularity of their position regarding their stay in Italy, pursuant to the current provisions on immigration (Legislative Decree 286/1998).

In any case, those who, within the term set by the University, do not declare that they accept it or do not sign the relevant employment contract will lose the right to the conferral of the research contract.

The fixed-term employment relationship, under no circumstances, can automatically convert into an open-ended employment relationship.

The ownership of research contracts does not give any right to access the role of universities, public research bodies and institutions whose scientific specialization diploma has been recognized as equivalent to the title of PhD pursuant to Article 74, fourth paragraph, of Presidential Decree No. 382 of 11 July 1980, nor can it be counted for the purposes of Article 20 of Legislative Decree 25 May 2017, No. 75.

- ART. 9 -

EMPLOYMENT RELATIONSHIP

The contractor carries out research activities exclusively, articulates the work in agreement with the Research Manager and is required to give an account of his/her activity whenever requested; to this end, the compilation of a register or *time sheet* may be provided in which to periodically note the progress of the activity carried out.

The contractor is required to:

- submit, normally annually and, in any case, at the end of the report, to the Council of the Department a detailed report on the activities carried out, endorsed by the Head of Research;

The violation by the contractor of these obligations constitutes a disciplinary offence.

The legislation on the protection of maternity and paternity, as well as the provisions for assistance, social integration and the rights of people with disabilities, apply to the employment relationship, as far as they are compatible.

The activity of the contractor is carried out at the headquarters of the structure concerned, without prejudice to the missions or off-site activities envisaged by the research project and/or those previously authorized by the Research Manager and approved by the Board of the same structure.

The University provides the contractor with the necessary support for the implementation of the activity covered by the contract, guaranteeing access to the premises, equipment and the use of technical-administrative services, compatibly with its organization, with the needs and with the resources available to the specific research program.

- ART. 10 -

The performance of assignments outside the University may be authorized by the Director of the Department, after consulting the Head of Research, in order to ensure the compatibility of the performance of the activities and after assessing the absence of conflicts of interest. The holder of the research contract may not, in any case, carry out activities that may lead to a situation of conflict of interest with the activities of the University of Parma or that do not allow the regular performance of the research activity.

- ART. 11 -

ECONOMIC, FISCAL, SOCIAL SECURITY AND INSURANCE TREATMENT

The holder of the research contract is paid the gross annual salary, net of charges borne by the University, indicated in Article 1 of this call, determined in relation to the commitment required and the complexity of the activities to be carried out. The amount is attributed to the contract holder in monthly installments of the same amount.

The employment relationship that is established between the University and the research contractor is governed by the provisions in force on the subject, also with regard to the tax, welfare and social security and insurance treatment, provided for income from employment.
