DESCRIZIONE DEL PROGETTO DI RICERCA / DESCRIPTION OF THE RESEARCH PROJECT
<ul style="list-style-type: none">• Sviluppo di una piattaforma per <i>high-throughput small molecule screening</i> in supporti biomimetici per le seguenti patologie: leucemie acute e croniche, linfomi, mielomi, tumori ORL, polmone, mammella, tiroide, tumori dell’apparato digerente, tumori pediatrici. Queste neoplasie saranno caratterizzate geneticamente mediante criteri standardizzati e attraverso un pannello NGS che identifichi le mutazioni somatiche ricorrenti e le germinali che predispongono all’insorgenza di tumori.• Sviluppo di piattaforme che possano dissezionare il ruolo del sistema immunitario permettendo un’analisi dell’eterogeneità intraclonale, mediante la quantificazione delle diverse popolazioni cellulari tumorali (cellule neoplastiche, immunologiche, microambiente) e la quantificazione di proteine di <i>signaling</i> di attivazione. Per questo obiettivo ci prefiggiamo, ad esempio, di sviluppare una piattaforma di proteomica spaziale, tramite lo strumento appena acquisito dall’AKOYA, per potere identificare e localizzare spazialmente le varie popolazioni cellulare coinvolte nel <i>microenvironment</i> del tumore e poter quantificare le proteine coinvolte nei <i>pathway</i> di attivazione.• Valutazione dei fattori “<i>host</i>” immunologici, infiammatori e metabolici che contribuiscono alla variabilità genetica nel profilo di sensibilità alla terapia.• Ricostruzione della multidimensionalità dei dati e loro semplificazione attraverso la preparazione di un <i>webportal</i> di chemogenomica in cui sia riportato un <i>summary</i> interattivo dei risultati ottenuti.• Innovare il processo di sperimentazione clinica personalizzata attraverso lo sviluppo di “N-of-1” trial, in cui ogni paziente possa beneficiare di una terapia personalizzata sulla base dei dati multiomici ricostruiti attraverso le differenti pipeline di analisi. <p><i>• Development of a platform for high-throughput small molecule screening in biomimetic scaffolds for the following diseases: acute and chronic leukemia, lymphoma, myeloma, ENT, lung, breast, thyroid, digestive tract cancers, and pediatric cancers. The **qualification obtained abroad** must be official in the university system of reference, issued by an institution officially accredited in the country of origin, and must be recognized by the Selection Committee, in terms of nature, level and disciplinary correspondence, as equivalent to the Italian qualifications indicated above, for the sole purpose of awarding the research assignment covered by this call. In foreign university systems that provide for a single course of study that integrates the master's degree and the doctorate and that issue a unitary degree, the Selection Committee assesses the correspondence of the qualification, even if it is of a higher level.

Candidates in possession of a qualification obtained abroad can participate in the selection by opting for one of the following **alternatives**:

- ART. 6 -

SELECTION MODE

The selection is carried out through a **comparative evaluation of the candidates** through the examination of qualifications, publications and other scientific products, as well as the carrying out of a **public interview** useful for ascertaining the aptitude and suitability for research, as well as the language skills, of the candidates themselves.

For the evaluation of each candidate, the Selection Committee has a **maximum of 100 (one hundred) points** available, divided based on the following criteria:

Evaluation criteria	Maximum score that can be awarded
a) relevance and relevance of titles, publications and other scientific products, in relation to the activities covered by the assignment	40 points
b) interview aimed at ascertaining the aptitude and suitability to carry out the activity covered by the assignment, as well as the knowledge of English and/or other languages relevant to the research activities to be carried out	60 points

The Selection Committee, before examining the applications, analytically declines the aforementioned evaluation criteria, published on the University website ([Link: **Calls for Research Assignments**](#)⁴), in the section dedicated to this procedure, as well as the methods of evaluation of the same in order to assign the relative scores.

Candidates who have obtained a score of at least 25 (twenty-five) points in the evaluation of qualifications, publications and other scientific products are admitted to the interview.

The notice containing the list of candidates admitted to the interview, with an indication of the score obtained by them in the evaluation of qualifications, publications and other scientific products, as well as the communication of any changes with respect to what has already been announced, will be published on the University website ([link: **Calls for Research**](#)⁴ Assignments), in the section dedicated to this procedure, with notification value to all interested parties, on **15 JULY 2026**.

The interview, in public, will take place according to the following **calendar**:

Date and time	Procedure	Location
JULY 17, 2026 12:00 pm	In presence (*)	Azienda Ospedaliera - Universitaria di Parma Padiglione 26 - mezzanine floor Viale Antonio Gramsci 14, 43126 Parma

(*) The public form that distinguishes the interview will be guaranteed by allowing anyone to be able to attend it at the time of its development.

Those who are citizens of a European Union country must present their passport, or an identity document issued by the country of origin. Applicants from non-EU countries must present only their passport.

The absence of the candidate from the interview will be considered as a waiver of the procedure, whatever the cause.

Once the evaluation has been concluded, the Commission shall draw up a merit ranking list for each candidate, on the basis of the criteria referred to in points a) and b) above, in descending order and identify the winner of the selection. The judgment of the Commission is final on the merits.

The selection is considered passed with a minimum score of 70 (seventy) points out of a total of 100 (one hundred).

The research assignment is awarded to the candidate who has obtained the highest overall score according to the order of the final ranking. In the event of equal merit, the candidate of the youngest age is preferred.

- ART. 7 -
