ANNOUNCEMENT OF THE PUBLIC SELECTION

A selection procedure is announced for the assignment of 1 post-doc appointment, with a duration of 12 (twelve) months, pursuant to art. 22 bis of Law no. 240 of 30.12.2010 and the related University Regulations, as specified below:

TITOLO DEL PROGETTO DI RICERCA / TITLE OF RESEARCH PROJECT
Sviluppo di modelli numerici per flussi 2D fortemente non idrostatici basati sulle equazioni VAM
<i>Development of Numerical Models for Strongly Non-Hydrostatic 2D Flows Based on the VAM Equations</i>
DESCRIZIONE DEL PROGRAMMA DI RICERCA / DESCRIPTION OF THE RESEARCH PROGRAM
Il progetto mira allo sviluppo di modelli numerici avanzati basati sulle equazioni VAM per la rappresentazione accurata di flussi 2D fortemente non idrostatici. L'obiettivo è migliorare la comprensione dei fenomeni idraulici complessi che emergono in presenza di correnti caratterizzate da pressioni non idrostatiche e/o significative velocità verticali. Particolare attenzione è dedicata alla simulazione dei comportamenti in curva, dove si generano strutture vorticali e distribuzioni di velocità altamente eterogenee, e allo studio dello scambio di moto tra l'alveo principale e le golene, essenziale per descrivere processi di laminazione e dissipazione dell'energia. Il modello verrà inoltre applicato ai flussi attraverso brecce arginali, caratterizzati da forte accelerazione, effetti non idrostatici marcati. Il risultato atteso è un insieme di strumenti numerici robusti e ad alta risoluzione per l'analisi di scenari idraulici critici e per il supporto alla gestione del rischio alluvionale.

The project aims to develop advanced numerical models based on the VAM equations for the accurate representation of strongly non-hydrostatic 2D flows. The objective is to improve the understanding of complex hydraulic phenomena that arise in the presence of currents characterized by non-hydrostatic pressures and/or significant vertical velocities. Particular attention is devoted to simulating flow behavior in bends, where vortical structures and highly heterogeneous velocity distributions are generated, and to studying momentum exchange between the main channel and the floodplains, which is essential to describe attenuation processes and energy dissipation. The model will also be applied to flows through levee breaches, which are characterized by strong acceleration and pronounced non-hydrostatic effects. The expected outcome is a set of robust, high-resolution numerical tools for analyzing critical hydraulic scenarios and supporting flood-risk management.

The selection is carried out through a **comparative evaluation of the candidates** and is aimed at assessing the adherence of the *scientific-professional curriculum*, possessed by them, to the performance of the activity covered by the assignment.

The assessment is supplemented by a **public interview** aimed at ascertaining the candidates' aptitude for carrying out the activity covered by the assignment, as well as their language skills.

For the evaluation of each candidate, the Selection Committee has a **maximum of 100 (one hundred) points** available, divided based on the following criteria:

Evaluation Criteria	Maximum score

b) relevance and relevance of titles, publications and other scientific products, in relation to the activities covered by the assignment	20 Points

d) interview aimed at ascertaining the aptitude and suitability to carry out the activity covered by the assignment, as well as knowledge of the English language	40 Points

The Selection Committee, before examining the applications, analytically declines the aforementioned evaluation criteria, published on the University website (*Link: [Post-doc Assignment Calls](#)*⁴), in the section dedicated to this procedure, as well as the methods of evaluation of the same in order to assign the relative scores.

Candidates who have obtained a score of at least 30 (thirty) points in the evaluation of the criteria indicated in letters a) and b) and c) are admitted to the interview.

The notice containing the list of candidates admitted to the interview, with an indication of the score obtained by them in the evaluation of the criteria referred to in letters a), b) and c), as well as the communication of any changes with respect to what has already been announced, will be published on the University website (*Link: [Post-doc Assignment Calls](#)*⁴) with notification value to all interested parties, on **27 AUGUST 2026**.

The interview will take place according to the following **calendar**:

Date and time	Procedure	Venue
SEPTEMBER 3, 2026 10:00 a.m.	presence (*)	University of Parma Department of Engineering and Architecture Scientific Headquarters Parco Area delle Scienze 181/a - 43124 Parma (PR) ➔ Padiglione 10, Pal. B - Aula B/2

(*) The public form that distinguishes the interview will be guaranteed by allowing anyone to be able to attend it at the time of its development.

For the purposes of identification and under penalty of exclusion from the selection procedure, each candidate is required, before the interview begins, to identify himself/herself, by showing a suitable identification document. Those who are citizens of a European Union country must present their passport, or an identity document issued by the country of origin. Applicants from countries outside the European Union must present only their passport.

The absence of the candidate from the interview will be considered as a waiver of the procedure, whatever the cause.

Once the evaluation has been concluded, for each candidate, based on the criteria referred to in points a), b), c) and d) above, the Commission draws up a merit ranking list in descending order and identifies the winner of the selection. The judgment of the Commission is final on the merits.

APPROVAL OF THE RANKING LIST

The acts of the selection procedure are approved by Rector's Decree, published on the *online Register* and on the website of the University of Parma in the section dedicated to the procedure, which can be reached via link to the web [page](#) **Calls for Post-doc Appointments** ⁴, which will declare the winner under a condition precedent of the verification of the requirements for admission to employment. The deadline for any appeals runs from the day of publication of this decree. The ranking list remains in force for 12 (twelve) months, starting from the date of approval of the acts, without prejudice to compliance with all the requirements for the activation of the post-doc assignment. No declarations of eligibility for selection will be made.

The post-doc assignment may be assigned to an additional candidate who has been found to be suitable, according to the order of the respective ranking, in the following cases:

- renunciation of the employment formalized by the winner;
- forfeiture of the winner from the right to employment due to non-acceptance within the deadline set by the University or for other reasons provided for by law;
- failure to take service of the winner;
- early termination of the individual contract concluded with the winner.

During the validity of the ranking list, in the presence of further justified needs relating to the performance of the same research program, the Department Council may propose to the Rector the assignment of additional post-doc appointments to candidates who have been duly placed in the ranking list, provided that the availability of the relevant financial coverage has been ascertained.

- ART. 8 -

ESTABLISHMENT OF THE EMPLOYMENT RELATIONSHIP and ASSUMPTION OF SERVICE

The post-doc assignment is conferred through the stipulation of an individual fixed-term employment contract, with a duration of 12 (twelve) months, containing the rights and duties of the parties, to be signed within the term set by the University.

At the time of signing the employment contract, interested parties are invited to submit the documentation required pursuant to current legislation. Failure to deliver or incomplete delivery or failure to regularise it, within the prescribed period, will result in the forfeiture of the right to employment.

The winner in possession of a doctoral degree or a similar degree obtained abroad may enter into the individual employment contract only after legal recognition of the same in Italy, according to the procedures provided for by current legislation, under penalty of forfeiture of the right to the assignment of the post-doc assignment and elimination from the ranking.

Citizens of non-European Union countries, to sign the employment contract, must certify the regularity of their position regarding their stay in Italy, pursuant to the current provisions on immigration (Legislative Decree 286/1998).

In any case, those who, within the deadline set by the University, do not declare that they accept it or do not sign the relevant employment contract lose the right to the conferral of the post-doc assignment.

The fixed-term employment relationship, under no circumstances, can automatically convert into an open-ended employment relationship.

The holding of post-doc positions does not give any right to access the role of universities, public research bodies and institutions whose scientific specialization diploma has been recognized as equivalent to the title of PhD pursuant to

Article 74, fourth paragraph, of Presidential Decree no. 382 of 11 July 1980, nor can it be counted for the purposes of Article 20 of Legislative Decree 25 May 2017, No. 75.

- ART. 9 -

The holder of the post-doc appointment may not, in any case, carry out activities that may lead to a situation of conflict of interest with the activities of the University of Parma or that do not allow the regular performance of the research activity.

- ART. 11 -
