3.3.7	Does your university as a body provide staff with access to mental health support?	Yes	active promotion of good mental health		https://www.cai.unipr.it/en/counseling/140/	The psychological counselling service ('Counseiling psychology') at the University of Parma is aimed at both students and university staff (teaching and administrative staff) and their families. Counselling is a short-term process based on building a helping relationship aimed at reorganising the person's resources and developing strategies to deal with difficult situations. It consists of individual or group interviews conducted by experienced psychologists. The University's psychological counselling service offers free of charge: guidance counselling; learning counselling; personal counselling.			Yes	active promotion of good mental health	Yes	https://www.unipr.it/en/cai/counseling-psicologico	The University of Parma provides staff with access to free mental health support through its Psychological Counselling Service. The service is available to researchers, academic staff and technical-administrative staff and offers short-term psychological counselling delivered by qualified psychologists. Support is available for difficulties affecting wellbeing, work-life balance and personal circumstances, with up to five counselling sessions available free of charge. Staff can access the service directly through the University's counselling system, helping to promote mental health and wellbeing across the university community.
