4.2.1	Number of graduates						6165							6381	
4.2.2	Number of graduates who gained a qualification that entitled them to teach at primary school level						0							0	
4.3.1	Does your university as a body provide free access to educational resources for those not studying at the university, e.g. computers, library, online courses, access to lectures, etc?	yes	free courses leading to certificate	yes	https://learn.eduopen.org/eduopenv2//institution_details.php?institutionid=10	The University of Parma is a partner of eduopen.org, a platform created by 14 Italian public universities to offer everyone the opportunity to follow highquality distance learning courses free of charge. The Moocs (Massive open online courses) are taught by university lecturers and produced by the universities. The University of Parma's contribution consists of 8 courses.			Yes	free courses leading to certificate	yes	https://learn.eduopen.org/eduopenv2//institution_details.php?institutionid=10	The University of Parma provides free access to educational resources for people who are not enrolled at the University through its participation in the EduOpen platform. EduOpen is a consortium of Italian public universities that offers free Massive Open Online Courses (MOOCs) to the general public. These courses are delivered by university academics and can be accessed online without enrolment in a degree programme. The University of Parma contributes to the platform with nine MOOCs, making high-quality educational resources freely available to lifelong learners, professionals and other members of the wider community.

4.3.2	Does your university as a body host events at university that are open to the general public: public lectures, community educational events?	yes	all free		https://www.facciamoconoscenza.unipr.it/	The enhancement and transfer of knowledge constitute a mission and a primary tool for building and consolidating the reputation of the University of Parma in the reference territorial context and on the national and international scene. In the variegated and constantly evolving scenario that we are experiencing, the University is aware that it must play a strong driving role by promoting an increasingly effective sharing of knowledge with the reference territorial context, in all disciplinary fields, making use of all the main communication technologies.			yes	all free	Yes	https://www.unipr.it/facciamo-conoscenza	The University of Parma regularly hosts educational and public engagement events that are open to the wider community. These include public lectures, conferences, seminars and outreach activities organised throughout the year. In 2026, for example, the University opened its Climate Change lecture series to the general public, allowing external participants to attend all lectures without prerequisites. The University also organised the Parma Sustainable Development Festival, which included public talks, workshops and educational activities involving citizens, schools and local organisations. Through these initiatives, the University shares academic knowledge beyond its student population and promotes lifelong learning within the wider community.

4.3.3	Does your university as an educational body host events at university that areopen to the general public: executive education programmes (this refers toshort courses for people who are not attending the university; this specificallyexcludes courses like MBA) and/or vocational training?	yes	ad-hoc	yes	https://scvsa.unipr.it/en/node/100107	The University of Parma hosts CIREA is an accredited center for Education for Sustainability in the Regional System. This center offers regular courses in the field of sustainability.			yes	ad-hoc	yes	https://scvsa.unipr.it/cirea_attivita_evidenza	The University of Parma hosts educational and professional development activities that are open to audiences beyond its enrolled students through CIREA (Italian Centre for Environmental Research and Education). As an accredited Centre for Sustainability Education (CEAS), CIREA provides training, continuing professional development and educational programmes on sustainability-related topics for teachers, educators, schools and members of the wider community. Examples include the programme Docenti a scuola con l’Agenda 2030, which delivers continuing professional education for teachers, and a range of sustainability education initiatives developed within the national RiGenerazione Scuola framework. Through these activities, the University contributes to lifelong learning and vocational development beyond its registered student population.

4.3.4	Does your university as a body undertake educational outreach activities (e.g. tailored lectures or demonstrations) beyond campus, e.g. in local schools, in the community, including voluntary student-run schemes?	yes	ad-hoc	Yes	https://www.unipr.it/en/node/109019	RESEARCHERS@SCHOOL is part of the European Researchers' Night, organised by the University with the collaboration of Frascati Scienza (lead partner of the initiative at national level), and responds to a precise indication from the European Commission, which has expressed its desire to reduce the distance between the world of research and educational institutions by introducing the new programme dedicated to schools. Thanks to this initiative, dissemination activities are designed or reformulated to be carried out right in the classroom.			yes	ad-hoc	yes	https://www.unipr.it/en/researcherssschool	The University of Parma undertakes educational outreach activities beyond its campus through initiatives such as RESEARCHERS@SCHOOL, developed within the framework of the European Researchers' Night. Through this programme, researchers and educators deliver lectures, demonstrations and interactive learning activities directly in schools, helping to bring research closer to students and teachers. The initiative is specifically designed to strengthen the connection between educational institutions and the research community by adapting scientific dissemination activities for classroom delivery. Through these outreach actions, the University promotes scientific literacy and engagement with research among young people in the local community.
