

UNIVERSITÀ DI PARMA

# JOIN TETRA PAK'S VIRTUAL COMPANY PRESENTATION

19 June 2020 at 10.30-12.00 hrs

## ABOUT THE EVENT

We are happy to invite you to join our company presentation online dedicated to graduating students. Come and talk to an international group of employees of Tetra Pak to get to know about:

- **How we provide complete solutions to transform food processing and packaging**
- **Innovation driving forces in our global company**
- **Graduate opportunities and hiring process**
- **What it is like to work for us**

**Looking forward to seeing you there!**

## ABOUT TETRA PAK

Tetra Pak is the world's leading food processing and packaging solutions company. Working closely with our customers and suppliers, we provide safe, innovative and environmentally sound products that each day meet the needs of hundreds of millions of people in more than 160 countries. Our motto, "PROTECTS WHAT'S GOOD™," reflects our vision to make food safe and available, everywhere.

We are constantly looking to add to our team of world class engineers. People with ideas - like our founder Dr. Ruben Rausing. Back in the post-war 1950's, he created a cardboard package for milk that required a minimum of material while providing maximum hygiene. A wild idea at the time. Today, our portfolio offers the widest range of packaging and processing solutions for consuming fresh products. Protecting food, people and futures.

More information about Tetra Pak is available at [www.tetrapak.com](http://www.tetrapak.com)
