

## **International students: procedures for pre-evaluation and enrolment at the University of Parma**

### **First call for applications for second cycle degree courses in English from 28 February to 31 May**

Bylaws and regulations governing international student access to Italian higher education degree courses for the Academic Year 2022/2023 can be found at the address [www.studiare-in-italia.it/studentistranieri](http://www.studiare-in-italia.it/studentistranieri); visit and then register on the University portal <https://www.universitaly.it/index.php/students/stranieri> and apply through your reserved area to obtain the final validation of your qualifications and obtain an entry VISA to Italy.

The University pre-enrolment procedure does not guarantee the final admission; to enrol in the courses at the University of Parma, a pre-evaluation is required to access the chosen degree course.

Pre-evaluation of candidates is **mandatory to determine eligibility for admission into a second-cycle degree course taught in English** while it is optional for all three-year and second cycle degree courses taught in Italian.

Students enrolling in an English-language second cycle degree course (**Engineering for the food industry, Food Safety and Food Risk Management, International Business and Development e Language Sciences and Cultural Studies for Special Needs**) should therefore apply using the appropriate link: [https://www.idem.unipr.it/secure/pre\\_admission](https://www.idem.unipr.it/secure/pre_admission)

The deadlines for requesting the pre-evaluation of your academic credentials are the following:

May 31, 2022 (first call)

June 1st to July 31st, 2022 (second call)

For the **Communication Engineering** degree course please follow the procedure on this link <https://communication-eng.unipr.it/index.php/admission-procedures/>

For the **MUNER - Electronic Engineering for intelligent vehicles degree** course, the information will be published at <https://motorvehicleuniversity.com/>

While proceeding to the pre-enrolment form on the University portal, it will be mandatory for prospective students to upload, among other required documents, the "Acceptance Letter" obtained through the pre-evaluation. Failure to do so will compromise the success of the pre-enrolment procedure.

For those enrolling in a first-cycle degree course, single-cycle or second cycle (master) degree course taught in Italian and for the course in "Medicine and surgery", it is possible to fill in this form <https://www.unipr.it/node/29950> where, any documents in the possession of international students relating to their higher studies and level of knowledge of the Italian language, can be attached.

If the documentation is complete, the University will carry out a preliminary assessment of the qualifications and, if the level of Italian is not sufficient, language courses will be organised in preparation for the compulsory test.
